

Endispute[™] online mediation from JAMS is effective, flexible and affordable.

Powered by CourtCall[®], Endispute online mediation is a browser-based video and audio application that offers parties an efficient mediation alternative when the value or complexity of claims do not warrant a traditional, in-person mediation session. Endispute online mediation is ideal for low to moderate value claims (\$100,000 or less) that can be resolved in a two-hour session.

The Endispute[™] online mediation advantage
