

JAMS Expedited ADR Options

Proactive measures to help you avoid protracted commercial conflict

Conflict is inevitable in the global economy. Unprecedented business disruption has created a demand for faster, more responsive dispute resolution. As the world's largest ADR provider, JAMS is your premier resource for fair, flexible solutions that allow parties to de-escalate disputes, maintain critical relationships and plan ahead to address future uncertainties.

Early Dialogue

Early Dialogue offers businesses, suppliers and stakeholders the opportunity to preempt costly disputes by considering the “what ifs” and determining future courses of action if/when obligations are not met. An experienced JAMS facilitator can create an appropriate format for discussion and guide the parties toward consensus.

Neutral Facilitation

Neutral Facilitation is a nuanced, forward-looking process that allows businesses to mitigate disputes or avoid them altogether. Initial sessions and follow-ups can be scheduled quickly with a JAMS facilitator who will keep the process on track and help parties collaborate to reach a rapid, mutually beneficial outcome.

Pre-Litigation Mediation

Mediation can provide speedy, practical remedies focused on success for all sides. JAMS mediators with business, transactional and inside counsel backgrounds are adept at identifying litigation risks and providing a framework for productive discussions. They can assist parties in finding creative solutions that meet the needs of a diverse array of stakeholders.

Expedited Arbitration

Expedited Arbitration is a powerful mechanism for obtaining an enforceable decision in six months or less. JAMS expressly provides for expedited procedures in both our domestic and international arbitration rules. Parties may also craft a custom arbitration process to address circumstances that were impossible to foresee at the start of their business relationship.

JAMS neutrals are available to resolve your case virtually via videoconference or in one of our 28 Resolution Centers. Visit jamsadr.com for more information.
